

## IMPORTANT INFORMATION ABOUT THE AVAILABILITY OF ACCESSIBLE NAVIGATION DEVICES

CAS Cable offers cable television equipment that helps our blind and visually impaired customers access our cable television services. We provide this notice to give you information about this equipment and how you can request it.

### Availability of the CAS Cable Accessible Receiver

Our blind or visually impaired customers can contact us to request a navigation device with on-screen text menus and guides for the display or selection of video programming that are audibly accessible in real time. Pay Per View is not available with this option.

### Accessibility and Compatibility Features

The device offered by CAS Cable allows many functions used for the display or selection of video programming (like program selection, playback functions and volume controls) to be audibly accessed through on-screen text menus or guides.

### How to Request a CAS Cable Accessible Receiver; Contact Information

To request a CAS Cable Accessible Receiver, or if you have any general and specific questions about the availability of accessible equipment, please contact us at (304) 420-2470.
